

## 4200mm Aluminum Channel for Glass

### Grout in Rapid Channel

- **Length:** 4200mm
- **Material:** Aluminium (Mill Finish 6106 T6)
- **Installation:** Surface mount grout-in system
- **Finish:** Mill finish aluminium—ready for powder coating in any colour
- **Glass Compatibility:** Suitable for glass up to 19mm thick
- **Compliance:** Meets pool fencing and balustrade standards
- **Custom Fit:** Drill fixing holes as needed through the base of the channel
- **Easy Mitring:** Quick to cut and mitre for internal or external corners
- **Clean Finish:** Glazing wedge rubber conceals grout for a neat, professional look
- **Accessories:** End caps and infills available for a complete installation solution

**Note:** Sitting blocks (plastic or rubber) are *not included*. These can be sourced from **Clark Rubber** or similar retailers.
