

The image displays three panels: two black and one white. Below the black panels is the text "4 PACK". Below the white panel is the text "4 PACK". To the right is a diagram titled "AFTER BARR PANEL IS INSTALLED" showing the installation of "2 X TOP BRACKETS" and "2 X BOTTOM BRACKETS". The diagram includes dimensions: "34mm" for the panel width and "24.5mm" for the panel height. Below the diagram, it states: "Drill down-hole 10mm from front into 250GSM horizontal rail. Push cap with lag into hole. Apply structural adhesive to rail and press on cap without lag ensuring evenness otherwise is sacrificed."
