

Polished Stainless Edge Mount Spigot

Edgemount Spigot – Face-Mount Glass Spigot

- Designed for **face-mount (edge-mount)** glass fencing and balustrade applications
- Ideal for **decks, retaining walls, and slab edges** where top-mounting isn't suitable
- Made from **2205 Duplex Stainless Steel** for superior strength and corrosion resistance
- Compatible with **12mm toughened glass panels**
- Mirror Polished Stainless
- **No core drilling required** – surface-fixed to vertical face
- Provides a **sleek, modern frameless glass finish**
- Suitable for **pool fencing and balustrade installations**
- **DIY-friendly** mounting system for easy installation

Important Note: You must have at least 150mm of clearance under the spigot to slide the fixing cover back on after installation.
