

Glass to Glass 90 Degree Internal Angle Pool Fence Gate Latch

Secure your glass gates with confidence using our 90° Glass-to-Glass Internal Angle Latch. Perfect for glass pool fencing or glass balustrade gates, this latch is designed for strength, style, and easy installation. Featuring a durable construction and multiple finish options, it provides both premium corrosion resistance and a modern aesthetic to suit any project.

Key Features:

- Designed for 90° internal glass-to-glass connections
- Available in two models: **Economy** (cost-effective) and **Deluxe** (premium finish and durability)
- Available in four stylish finishes:
 - Polished Stainless Steel
 - Satin Stainless Steel
 - Black
 - White
- 316-grade stainless steel backing plates for superior corrosion resistance
- Sleek, UV-stabilised black polymer latch on economy models
- Suits 8mm, 10mm, and 12mm thick glass gates
- No holes required in the latch panel (fixed side)
- Easy installation – gate requires two 10mm holes (20mm in from edge, spaced 42mm apart)
- Recommended 9mm gap between gate and latch panel for optimal performance

Installation Notes:

- Gate panel must be 8mm, 10mm, or 12mm thick.
- Latch panel must be 12mm thick (no drilling required).

Perfect for:

- Glass pool fence gates
- Glass balustrade gates
- Residential or commercial glass installations

Choose your model and finish — and secure your gate with style and strength using our premium 90° Glass-to-Glass Latch!
