

Inline Joiner for 35x35mm Aluminium Glass Top Rail

- 35x35mm Inline Joiner
- Use when 2 lengths of rail join in a straight line
- Made from structural alloy 6061-T6
- Fits into Internal Cavity of Rail
- 4 x Pointed Grub Screws pre-installed to aid in securing join of rails
- Fitting is not visible once installed so does not need to colour match to the rail

Note: For maximum strength the joiner must be installed over the centre of a glass panel.
