

Square Base Plated Spigot For 15mm Glass Balustrade

Easy Top Mount Base Plate for 15mm Glass Balustrades

The **Top Mount Base Plate** is designed for easy installation of 15mm glass balustrades, providing a secure and stylish solution for your glass panels. This friction-fit system requires no holes in the glass, making installation fast and simple.

Key Features:

- **Perfect for 15mm Glass Balustrades:** Specifically designed for 15mm thick glass, ensuring a perfect fit and secure hold.
- **Friction Fit Design:** No drilling required in glass for a clean, hassle-free installation.
- **High-Quality 2205 Grade Stainless Steel:** Durable and corrosion-resistant, ideal for both indoor and outdoor use.
- **Sleek 45mm Front Profile:** Provides a modern, streamlined look for your balustrade installation.
- **Versatile Mounting Options:** Features 4 x 11mm counter-sunk holes for timber screw or countersunk bolt installation, offering flexible mounting solutions.
- **Load Test Certificates Available:** Test certificates available on request for added assurance of strength and safety.
- **Available in Multiple Finishes:** Choose from Mirror, Satin, Matt Black, and Matt White finishes to match your décor and style.

Perfect for creating a safe, elegant glass balustrade system with ease, this top mount base plate is the ideal choice for your next project.
